

Dear Council Team, I wish to commend the outstanding work on the refurbishment of Oxford Road in Manchester. The recent efforts to repair cracks and repaint road markings have noticeably improved both the aesthetics and the safety conditions for local residents and commuters. The work carried out in March 2023 was efficient and thorough, leaving the area much cleaner and more navigable. It is heartening to see such dedication and attention to detail from the council's maintenance crew. I believe these improvements are a positive step towards better public infrastructure, and I encourage similar projects throughout the city. Thank you for your commitment to enhancing our roads and the overall community environment. Yours sincerely, Sarah P.
