

Dear Local Authority, I am writing to formally complain about the overflowing trash bins on Maple Avenue in Sheffield. Over the past few weeks, the bins have frequently been left unemptied, leading to a buildup of rubbish that mars the appearance of our neighbourhood and poses health risks due to attracting rodents and insects. Despite raising this concern with the council in early 2023, the issue remains unresolved, and the unhygienic conditions continue unabated. I request that immediate measures be implemented to increase collection frequency and improve cleanliness. I look forward to your swift response and remedial action. Yours faithfully, Emma L.
