

Dear Council, I am writing to lodge a formal complaint regarding the excessive noise pollution that has been disrupting the peace in our neighbourhood, particularly around Baker Street, London. Over the past several months, constant noise from late-night construction and unregulated nightlife has significantly affected the quality of life for local residents. The high decibel levels during early morning and late evening hours make it difficult to rest, thereby impacting our wellbeing. I urge the council to investigate these disturbances and enforce stricter noise control regulations. Please take immediate action to restore tranquility to our streets. Thank you for your attention to this matter. Sincerely,
David H.
