

Address: 210 Maple Crescent, Bolsover, S44 2NO

Dear Digital Inclusion Officer,

I am writing to propose that our community establish free Wi-Fi zones in public areas to ensure equitable access to the internet. Reliable connectivity is essential for education, business, and everyday communication.

I kindly request that the Bolsover District Council consider launching a pilot programme to install free Wi-Fi in strategic locations such as parks, libraries, and community centres.

Thank you for your attention. I look forward to your positive response.

Yours faithfully,

A Concerned Citizen
