Dear Digital Services Team,

I am writing to suggest that our community establish free Wi-Fi zones in public spaces to enhance connectivity. In today's digital era, ensuring that all residents have access to reliable internet is vital for education, business, and social interaction.

I propose that the Bolsover District Council launch a pilot programme to install free Wi-Fi in key locations such as parks, libraries, and community centres. This initiative would help bridge the digital divide and promote inclusivity.

Thank you for considering my proposal. I look forward to a positive response.

Yours sincerely,

A Tech-Savvy Resident
