Dear Community Education Coordinator,

I am writing to propose the introduction of skill development workshops for local residents. In our ever-evolving job market, continuous learning in areas such as digital skills, vocational training, and entrepreneurship is essential to remain competitive.

I kindly request that the Bolsover District Council consider launching a pilot programme in partnership with local businesses and educational institutions. This initiative would empower residents and boost local economic growth.

Thank you for considering my proposal. I look forward to your favourable response.

Yours sincerely,

A Proactive Community Member
