

Address: 160 Spruce Lane, Bolsover, S44 1TU

Dear Digital Services Team,

I am writing to suggest that our community establish free Wi-Fi zones in public spaces. In today's digital era, ensuring that all residents have reliable internet access is critical for education, business, and social interaction.

I kindly request that the Bolsover District Council consider a pilot programme to install free Wi-Fi in key locations such as parks, libraries, and community centres. This initiative would bridge the digital divide and foster greater connectivity.

Thank you for your prompt attention. I look forward to your response.

Yours faithfully,

A Concerned Citizen
