

## Analysis Report

### Original Text:

Dear Council,

I am writing to bring attention to the recent increase in littering in our neighborhood. In the past few months, I've noticed an alarming amount of trash being left in public areas, especially near the park and along Main Street. The current trash bins are overflowing and appear to be insufficient for the amount of waste. This is not only unsightly but also poses a serious health risk to local residents. I urge the council to increase the number of bins and arrange for more frequent waste collection.

Thank you for your attention to this matter.

### Abstractive Summary:

In the past few months, I've noticed an alarming amount of trash being left in public areas, especially near the park and along Main Street . The current trash bins are overflowing and appear to be insufficient for the amount of waste . This

### Extractive Summary:

Dear Council, I am writing to bring attention to the recent increase in littering in our neighborhood. This is not only unsightly but also poses a serious health risk to local residents. I urge the council to increase the number of bins and arrange for more frequent waste collection.

### Query-based Summary:

Dear Council,

I am writing to bring attention to the recent increase in littering in our neighborhood. In the past few months, I've noticed an alarming amount of trash being left in public areas, especially near the park and along Main Street.
